loono

We are young doctors, medical students and other professionals. We increase the health literacy of Czechs and motivate them to take responsibility for their health.

We do not scare, we communicate in a simple, clear and positive way.

For 11 years we've been saving lives through prevention.

Why does the **health of employees** matter?

39 %

Czechs do not regularly go to a practitioner for preventive check-ups.

**690
CZK**

That's how much it costs the company for one hour when an employee is sick.

50 %

The productivity of an employee who doesn't address his illness drops by that much.

25 %

Every fourth Czech is struggling with burnout syndrome.

Training that helps further

By choosing our workshop for your employees, you will also support **the education of thousands of other Czechs**. We invest part of the funds to create **educational content** for online channels and awareness campaigns. You will support our mission of a world without preventable diseases.

In addition you are helping to **develop a new generation of doctors** who see prevention as an important part of their future clinical practice.

Thank you!

Stories that matter

Be part of our mission. You too can save the **lives** of your colleagues.

6 weeks after attending your workshop, I discovered a small lump inside my right breast. My surgery was successfull and the doctors managed to remove it. I thank you from the bottom of my heart, because thanks to you, I discovered the tumor at an early stage. Denisa D.

Denisa, 27 y.o.

Dear miss, two weeks ago, my son touched his #boobsandballs as you call it. He is only 17 and it looks like a malignant tumor. Tomorrow, he is having a surgery. Please, keep inspiring other young people to take care of their bodies. Sincerely, Petr L.

David, 17 y.o.

Hey Míša, on Tuesday, the doctors removed the dermoid and a part of my ovaries. After your workshop in J.Hradec, I went to my Gyno exam (after 2 years)! Thank you <3
